

## How to access elearning for the Age Managers course

Log in to your Members Area account (members.sls.com.au) and click the eLearning tab > on the next page scroll down and click Login to eLearning. You will be redirected to the eLearning platform.

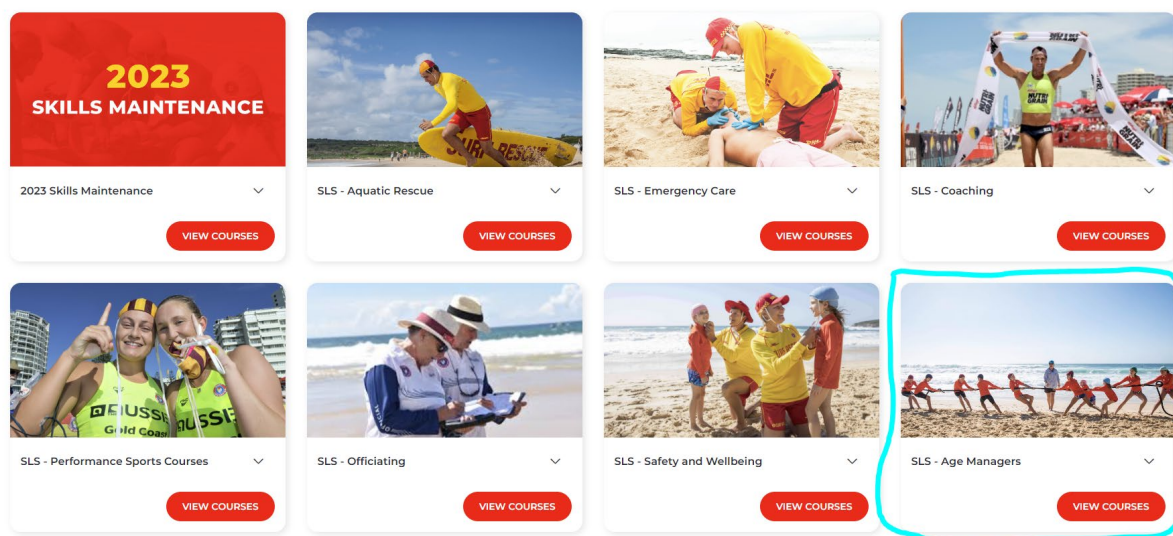

**The SLS - Child Safe Awareness (previously Safeguarding course) is a pre-requisite for the Age Managers course, you will need to complete this before doing the Age Managers course**

1. Click **My Training** and see if the Child Safe Awareness has been assigned to you. If it has, click enrol & start.

If you can't see 'My Training', there is a three-line icon near your name at the top of the page, try clicking that.

2. If it is not showing in your My Training you need to click Training Library. Once in the Training Library look for the SLS Age Managers tile and click View Courses.

You will then see the courses (pictured **below**). You need to complete the Child Safe Awareness first, then the Age Managers course > click Enrol. There is no charge to do the course. Once you have been enrolled in the course it will then show in your My Training.
